Repair and Reline Turnaround:

For best possibility of same day repair and reline delivery please call in advance to schedule. We understand emergencies happen, for these cases please call before 9AM.

Denture Warranty

In the unlikely chance a removable restoration made by P&Y needs a repair, we cover the cost of the repair for 90 days after the restoration is originally fabricated.

Any repair completed on a removable restoration not made by P&Y is covered for 30 days after the repair is completed. If the denture or partial needs repaired in the same place after the 30 day time period, another repair charge is incurred.

After patient and doctor approval of the wax-try-in, any modification to esthetics on teeth after processing will result in a cosmetic adjustment charge.

Partial Frameworks are guaranteed for one year after fabrication.
